

F500

Whole-House HEPA Air Cleaner

Honeywell

For the ultimate in clean air, count on the Honeywell F500 Whole-House HEPA Air Cleaner. HEPA stands for high-efficiency particle arresting, which most physicians recommend for allergy treatment programs. The Honeywell F500 Whole-house HEPA Air Cleaner provides powerful, 3-stage filtration to deliver the cleanest air possible throughout your home.

F500 Whole-house HEPA Air Cleaner

HOSPITAL-QUALITY AIR FOR YOUR HOME.

99% of particles in the air are invisible to the naked eye. Standard one-inch air filters trap less than 1% of those invisible particles, allowing them to re-circulate in your home. The Honeywell F500 captures 99.97% — which is about as close to “all” as you can get — of particles as small as 0.3 microns that pass through it. This includes pet dander, bacteria, pollens and more which can trigger allergies and irritate eyes and throats. Best of all, the F500 cleans the air in your entire home, unlike portable cleaners that are limited to select areas.

F500 Whole-House HEPA Air Cleaner

Part Numbers (US and Canada)		Application
F500A1000	F500A1000	Conditioned space
F500B1009	F500B1009	Unconditioned space

PRODUCT	PRODUCT DESCRIPTION	EFFICIENCY RATING*
BEST	F500 HEPA Air Cleaners	99%
