

Thermostat Private
Label Program

**ASSOCIATE YOUR COMPANY NAME
WITH THE HONEYWELL BRAND**

Program Overview

The Private Label Program gives your customers the best quality thermostat coupled with convenient HVAC service information. They'll know exactly who to call for future HVAC needs — and you'll get their reoccurring business. The program includes up to three full lines of your personalized information printed onto the thermostat cover, low minimum order quantities, and no annual volume commitment.

Distributor Instructions

- The part number(s) you assign must be unique to each customer and each product.
- When setting up multiple unique customer part numbers for the contractor, attach all part numbers under the same label. **Do not set up a new label for each unique customer part number.**
- You must use the unique customer part number(s) when ordering private label products from Honeywell.
- Maximum of 18 characters per customer part number. Part numbers must be **UPPER CASE** with no spaces. (For example: **TH811ORCLIMATRON**)
- Do not use Honeywell part number(s) for your customer part numbers. We suggest using a variation such as the example above.
- Orders are placed in case quantities.

Before you begin creating a private label, set up the unique product part number(s) for your customer in your system.

Check out your options at customer.honeywell.com

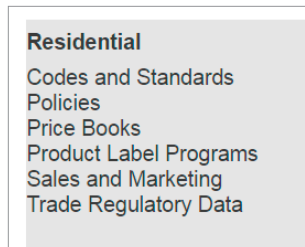

Free Web Set-Up

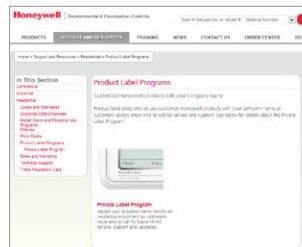

- 1 Log on to <http://customer.honeywell.com> (US) or customer.honeywell.ca (Canada) using your Distributor Account Number and password.*

- 2 Hover over **Support and Resources** at the top of the screen.

- 3 Click on the **Product Label Programs** link under **Residential** to the right of the screen.

- 4 Under **In This Section** click on **Private Label Program**.

- 5 Follow the online instructions for label and part number set up and other placement.

Drop Ship to Contractor – Freight Free

- Submit a standalone purchase order for the private labeled thermostat unique part number(s) only. If other products are included on the purchase order the private labeled thermostats will be shipped to the distributor.
- Enter Market Code **TPLP** clearly on your standalone purchase order. If placing your order via the B2B website, enter Market Code **TPLP** in the code field.

FREIGHT FREE CODE: TPLP

*Contact Honeywell Customer Care with any questions relating to logging onto <http://customer.honeywell.com> (US) or customer.honeywell.ca (Canada).
**Payment may be made using Distributor MDF or Contractor PRO points.

Summary of Terms and Conditions

- Private label orders are non-cancelable and non-returnable.
- Private label thermostat orders require eight business days or less production time for orders under 360 units or 15 business days production time for orders greater than 360 units prior to shipping. The lead time begins when the submitted label and part number(s) have been approved and Honeywell has received a purchase order from the distributor for the product.
- Private labeled orders will be shipped directly from the factory to the distributor unless drop ship to the contractor is required.
- Text changes to the label after it has been approved requires an entirely new label set up and the distributor or contractor will be charged a new set-up charge of \$85.00**. The distributor must purchase all labeled products in the process of being built or in-transit. Contact your Honeywell sales representative for assistance with the label transition.
- All private label requests must conform to Honeywell standards. Honeywell reserves the right to deny any private label request at its own discretion.
- Any inventory in the channel (in the factory or in transit) is the responsibility of the wholesaler/distributor. Honeywell will not be liable for any inventory in the channel.
- By ordering private labeled thermostats, you are agreeing to the terms stated in the Private Label Program. Honeywell reserves the right to change or cancel this program without notice.
