

Take Customer Service To The Next Level
WITH THE CONTRACTOR PORTAL

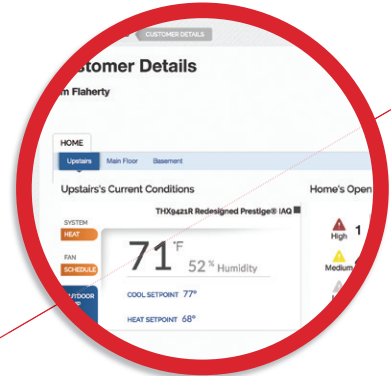

Solve Problems Before They Happen

Created for residential HVAC contractors, Honeywell's Contractor Portal is a web-based dashboard that delivers actionable data from your customers' Honeywell connected thermostats — all in one place. Now available at no charge, you'll be able offer Contractor Portal to more customers helping to take your business to the next level.

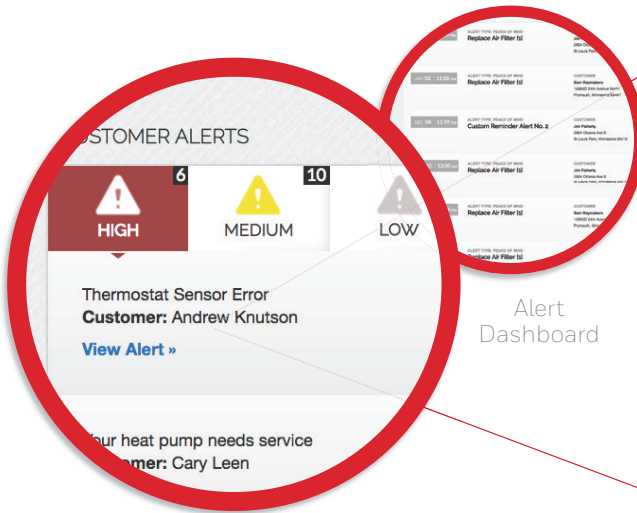

One Portal. Many Benefits. Better service

Give your customers peace of mind

- Alerts and notifications let you reach out to customers proactively
- 24/7 capability enhances your service agreements

Customer Snapshot

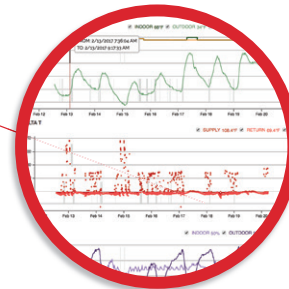

Alert Dashboard

Better profitability

Don't wait for the phone to ring. Use insights to drive new business proactively.

- Be the first to know when a potential issue occurs
- Offer personalized recommendations, backed up by real data, for accessories and new equipment

Advanced System Diagnostics

Better efficiency

Be smart about when to roll a truck.

- Troubleshoot remotely using data graphed and trended over time
- Prioritize service calls during your busy season

SET YOUR BUSINESS APART

The Contractor Portal gives you a competitive edge, helping you provide the exceptional service that builds trust and creates long-term customer relationships.

START TODAY

To activate Contractor Portal, you must be a current Honeywell Contractor PRO member. Visit contractorpro-honeywell.com or contact your Honeywell sales rep to apply today.
